Should Widen North Hazel St. for Future

The surest evidence of Hope's growth is our discovery that facilities which formerly served us well enough are today obviously crowded and insufficient.

One of the most striking examples was Third street, route through town of the transcontinental highway U. S. 67, which the state and city governments finally widened and repaved. It was deficient for years—and it took us years to get around to doing the remodeling job.

Today you can see the same problem shaping up on Neath Hand

problem shaping up on North Hazei street, route of State 29 North, which serves the original industrial district in Ward Four and will also be the main artery for traffic to and from the new industrial district in the former Southwestern Proving Ground military reservation. reservation.

Already North Hazel street has a traffic problem. The avenue is narrow and winding, and, with the absence of sidewalks in many places, presents a perpetual hazard to both motorists and pedestrians.

If you think it is dangerous now, wait until Cobbwood, Inc. gets going this Winter—and a few other industries come along to pour additional traffic ento a state highway route along a street that wasn't designed to carry heavy traffic at all.

North Hazel ought to be wid-ened and given adequate side-walks. And it ought to be done before new buildings further en-creach on the right-of-way. Action now will save thousands of dollars in accomplishing an improvement which will have to be made sooner or later anyway.

the United Nations Security Council today it has no right to consider Western charges that the Soviet blockade of Berlin is a menace to world peace.

Soviet Deputy Foreign Minister Andrei Y. Vishinsky led off his fight to keep the Berlin issue out of the council's hands. He declared the Western demand for U. N. consideration of the dispute was "devoid of any ground, as it does not fall within the scope of the security council".

The issue, he said, should be sent to the Big Four council of foreign ministers, as a formal note from Moscow proposed earlier to

Taking the argument to the for cign ministers' council, he said offers the only legal way to settle the problems of Germany, including Berlin which has been under a Soviet land blockade since last June 23.

He said the Berlin problem is closely linked to the whole German problem. He charged that the currency reform in Western Germany last June was an "act of aggression" against the Bussian occupation authorities and forced the Russians to take "defensive meas ures."

Vishinsky declared an American assertion that the Russians are threatening international peace with their Berlin blockade amounts to nothing but a means of pressure x x x a means to carry out the aggressive aims of that government."
